SAUVIGNON BLANC  
NAPA VALLEY

2021

## 2021 Vintage Notes

The warm weather of 2021 resulted in an early bud break, and combined with a hot summer, lead to an early harvest. Smaller hillside berries with intense flavors predominated, which made conditions perfect for wines with stunning character.

## 2021 Cultivar Napa Valley Sauvignon Blanc

Cultivar's popular Napa Valley Sauvignon Blanc is a food-friendly and delightful wine you can enjoy all year long. The pale straw color of sunshine sparkles from the glass, while the fresh tropical aromas of Meyer lemon and a touch of lime will delight your senses. The palate comes alive with flavors of passion fruit, honeydew melon, and orange peel, wrapped in a mouthfeel that's both vibrant and creamy.

Winemaker Julien Fayard has created a Sauvignon Blanc that delivers classic Napa Valley texture, weight, and structure. The satisfying finish lingers just long enough to tease the next sip.

Pair with ceviche, crab cakes, salad Niçoise, shrimp stuffed avocado, and corn salad. You'll also love this wine with fish like halibut, cod, or branzino.

### Production

1,000 Cases

### Varietals
